Cybersecurity Consultant | ServiceNow SecOps | OT/ICS Security | U. S. Citizen

PROFESSIONAL SUMMARY

Early-career ServiceNow SecOps and cybersecurity professional supporting Vulnerability Response delivery in client-facing environments. Experience translating security and business requirements into workflows, user stories, UAT activities, and stakeholder-aligned delivery. Strong foundation in vulnerability management, Agile delivery, and cross-functional collaboration.

CORE SKILLS

ServiceNow SecOps Delivery: Vulnerability Response lifecycle, requirements gathering, user stories, process flows, RAID tracking, UAT support, training support, and go-live readiness

Consulting & Project Delivery: Stakeholder coordination, meeting facilitation, Agile/Scrum, sprint tracking, requirements documentation, risk escalation, and cross-functional collaboration

ServiceNow Platform Concepts: Vulnerable items, workflows, forms, reports, SLAs, assignment ownership, remediation tracking, validation, and closure

Cybersecurity Foundations: Vulnerability management, incident response, risk prioritization, NIST CSF, ISO 27001, NIST SP 800-53, and IEC 62443

Technical & Academic Exposure: Cisco Packet Tracer, ACLs, NAT, VLANs, routing protocols, Splunk, SQL, Python, Java, Linux, RapidSCADA, Azure fundamentals, and Microsoft security fundamentals

PROFESSIONAL EXPERIENCE

Wipro | Cybersecurity Consultant | Philadelphia, PA (Remote)

Apr 2025 – Mar 2026

- Delivered a ServiceNow Vulnerability Response implementation by translating security and business requirements into functional workflows and solution documentation.
- Took on acting project management responsibilities, helping coordinate stakeholder meetings, requirements discussions, RAID tracking, and sprint deliverables in an Agile environment.
- Created and managed 27+ user stories, process flows, technical design artifacts, and UAT materials for delivery activities.
- Collaborated with client and technical teams to align ServiceNow SecOps capabilities with vulnerability management workflows and remediation objectives.
- Supported UAT planning, end-user training, and deployment readiness activities to help drive stakeholder sign-off and implementation success.

Penn State College of IST | Network Security Development Intern | University Park, PA

May 2024 – Jul 2024

- Built and configured network security labs using Cisco Packet Tracer and CLI, including ACLs, NAT, VLAN segmentation, DHCP, and DNS.
- Worked with routing protocols such as OSPF, EIGRP, RIP, and BGP to support secure multi-network lab environments.
- Developed hands-on lab content and evaluation materials for network security coursework in collaboration with faculty.

Accesso Services | Building Engineer | Philadelphia, PA

Feb 2018 – Aug 2022

- Supported daily operations and preventive maintenance within a 20-story Class A commercial building, working with HVAC systems, pumps, electrical rooms, life-safety equipment, access-controlled spaces, vendors, and contractors.
- Maintained operational continuity through equipment inspections, troubleshooting, work-order coordination, preventive maintenance, and escalation of safety and availability risks.

SELECTED PROJECT

Cyber Incident Handling and Response | Team Lead | University Park, PA

Aug 2023 – Dec 2023

- Led development of an incident response plan aligned with NIST SP 800-53 and ISO 27001, improving containment time by 40%.

EDUCATION & CERTIFICATIONS

The Pennsylvania State University | B.S. Cybersecurity Analytics & Operations, Cum Laude

Dec 2024

University Park, PA | GPA: 3.88 | Dean's List: 5 semesters

- ServiceNow CSA (in progress)
- ISC2 Certified in Cybersecurity (CC)
- Microsoft AZ-900 and SC-900
- Security and Risk Analysis Certificate
- Completed coursework requirements for NSA certificate program (school-issued recognition letter available)
